

EVERYTHING R744

R744.com Partnership Options

We offer you three options to become a partner of R744.com:

- **Gold Partner**
- **Silver Partner**
- **Bronze Partner**

The higher your partnership status the higher your visibility. Contact us for more details on the pricing and the benefits included.

R744.com offers advertising options for both manufacturers and engineering services companies. Following your company profile, you will benefit from:

- **Product Visibility (Manufacturers):** fully coloured description of your CO₂ components & systems in our user-friendly database - including efficient search functions
- **Services Visibility (Engineering services):** fully illustrated presentation of your engineering services & research activities – including efficient search functions

Depending on your engagement, you will profit from these common features:

- **Company News:** feature stories on your organisation, its products & services, and the team “behind the product” - including RSS feeds and regular news alerts to our subscribers
- **Logo Placement:** appearance of your logo on selected web pages
- **Political Intelligence:** for our Gold Partners we offer tailor-made briefing and lobbying reports to maximize your success in changing political environments

EVERYTHING R744

R744.com Partnership Benefits

As a supplier of CO₂ components and systems, as well as an engineering services company you can now harvest your investment in R744 technology. Advertising on R744.com will help you to:

- **Attract new customers:** foster the desirability of CO₂ heating and cooling technologies, open up distribution channels, and address stakeholders worldwide
- **Strengthen your profile:** present yourself as an organisation genuinely dedicated to provide environmentally-friendly technology
- **Raise your company visibility:** address public institutions and non-governmental sources, the media, and partners interested in your corporate & training events
- **Share your knowledge:** capitalise on our extensive cross-sectoral network of CO₂ technology related experts, and disseminate latest scientific results
- **Profit from our e-Marketing campaigns:** be part of our advertising campaigns on specialized websites and online Marketing Tools (such as Google Adwords)
- **Feature as our partner:** become visible during presentations of R744.com at leading international conferences and workshops
- **Benefit from our support:** rely on the multicultural R744.com team experienced in international communications, e-Marketing, customer relationship management, cutting-edge web programming, and political monitoring
