Most extensive CO₂ papers database on R744.com

With 300 documents, and growing, the R744.com Papers section is proving to be highly popular among the "CO₂ Community". Check out here relevant industry, research, and policy papers on latest developments regarding CO₂ Technology.

2007-10-02

Moving to become THE technical platform for all applications of CO₂ Technology, R744.com now offers 300 papers from business, media, research, and policy in its Papers section. Since its start in March, the collection of relevant documents has attracted high attention, with an accelerating growth in page views during the last weeks.

What to find on the R744.com Papers Section...

The R744.com Papers Section is the most extensive online database featuring only papers relevant for the CO₂ Community. Covering Mobile Air Conditioning, Commercial Refrigeration, and Heat Pump applications, it clearly shows the evolution of R744 Technology in these fields during the last five years. Tier 1 and 2 Suppliers, OEMs and scientists, among others, are using the database regularly for updates on technical specifications, new products, or latest test results for R744 systems. The following quotes taken from the R744.com Papers section reflect the status of R744 in different applications:

SINTEF (2007): "R744 can be proposed as the global MAC refrigerant for the future with the highest confidence regarding safety, fuel efficiency, flexibility regarding future developments and system improvement potential."

Tesco (2007): "There is no reason to delay the design of new plants using R-744 as the components and technology are now available"

BMW, Audi, Toyota, Denso, Behr, Delphi, Visteon etc. (2003): "The natural refrigerant CO₂ is the best alternative refrigerant to reduce greenhouse gas emissions."

... and how to use it

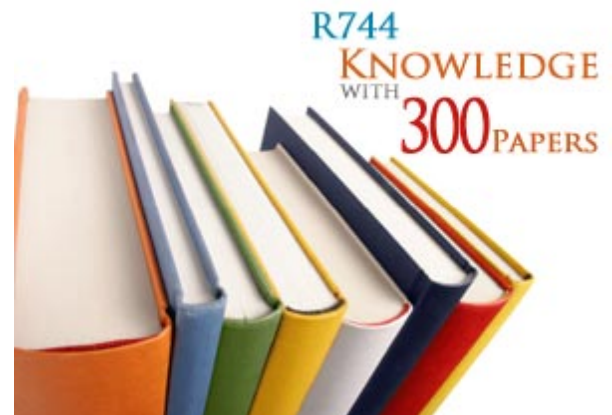

The Papers Section on R744.com is structured in several ways to facilitate an optimized use of all documents. You can search for the title and author, type, source, or topic to find the paper most relevant for you. For papers by a specific company, institute or political body, simply click on the desired logo in our "Search by organization". The "Latest Papers" and "Most Viewed Papers" reveal what has been added recently, and what attracts the highest attention from readers.

Send us your papers!

Do you miss a paper on R744.com? Do you think a document is miscategorized? Help us complete and improve our collection of relevant documents by sending your comment, presentation, article or study directly to info@r744.com.
